

PANDI MEENA K

TAMILNADU , INDIA

+91 6379156434 | pandimeenakumar2004@gmail.com | github.com/meena | linkedin.com/in/meena

PROFILE SUMMARY

Analytical and detail oriented Engineering graduate with strong skills in **Python, Pandas, SQL, Power BI, Tableau, and Excel**. Proficient in **data cleaning, transformation, and visualization** using tools such as **Matplotlib, Seaborn, and Power BI**. Adept at building **interactive dashboards, conducting trend analysis, and presenting insights** to support **data driven decision making**.

PROJECTS

Learning Project

- Python-Driven Sales Analytics and Visualization (Python)
- Predictive Churn Analysis for Subscription Services (SQL)
- Regional Profitability & Inventory Deep-Dive (EXCEL)

Unemployment and Youth Migration in India using REAL Data

- Utilized **real open government datasets** to analyze unemployment and youth migration trends across Indian states.
- Built an **interactive Power BI report** with maps and charts to visualize regional disparities.
- Created **DAX measures** for Unemployment %, Migration Ratio, and Year-over-Year trends.
- Designed a **clean data model** ensuring accuracy, efficiency, and scalability in reporting.
- Delivered insights on **state wise unemployment patterns** and **migration flows**, supporting policy and workforce analysis.

Mango & Orange Packaged Fruit Juice Analysis Report – Using Real Data Set

- Sourced real data on nutritional value and ingredients of popular Packaged Fruit Juice
- Applied **Excel and Power BI** for **data cleaning, transformation, and visualization**.
- Designed interactive report to evaluate product quality indicators such as **nutritional value, sugar content, vitamins, preservatives and real fruit juice** content.
- Created **DAX** measures to track consumption trends, health impact ratios, and year-over-year changes.
- Delivered **insights** to support **healthy product selection** and promote **consumer awareness** of nutritional benefits.

TECHNICAL SKILLS

- **Programming & Data Analysis:** Python, Pandas, NumPy, Matplotlib, Seaborn ,Django ,Flask ,Debugging
- **Data Visualization & BI Tools:** Power BI, Tableau, Excel (Pivot Tables, Charts, VLOOKUP)
- **Databases:** SQL (Joins, Aggregations, Queries, Stored Procedures)
- **Data Handling:** Data Cleaning, Data Transformation, ETL
- **Statistical Analysis:** Descriptive Statistics, Trend Analysis, Correlation, Causation
- **Other Tools:** Git/GitHub (version control)

EDUCATION

Ranees Govt. Girls Higher Secondary School | Pudukkottai, TN

Higher Secondary Certificate (HSC) – Computer Science Group | 2020 – 2021

Kings College of Engineering | Pudukkottai , TN

Bachelor of Engineering in Electronics and Communication | 2021 – 2025

CERTIFICATIONS

- **Data Analyst** – Besant Technology
- **Power BI** – ICT Academy
- **Tableau** – Besant Technologies
- **GitHub** - Simplilearn
